# Message from Director's Desk

**Dr. Ranjeet Singh**  
Ph.D, M. Sc.

"Dream it, Wish it, Do it." SIFS INDIA is a new generation investigation workforce that understands the growing problems and the need for forensics in all industries and is geared up for educating, training and preparing high-quality forensic professionals to fulfil future needs. When I started the company, it was a great challenge to develop and provide a platform allowing equality for all participants. Platforms are all built on the philosophy which will give you the light of hope and that however or whoever comes forward, the opportunities to succeed are equal for all. During the last 10 Years, SIFS INDIA has witnessed an unprecedented change in the market and opportunities for Professional Forensic Services.

The projected future demand indicates a similar increase in opportunities. Once trained, budding forensic professionals have to seamlessly adapt and leverage this dynamism to benefit the organizations they serve. A successfully trained forensic professional should be capable of identifying future trends and opportunities beyond current boundaries and develop a strategic vision on the grounding of in-depth knowledge and professional insight. The era of modern scientific Forensic Investigation has proffered the demand for "Excellence in Performance", correctly relegating mediocrity and inefficiency to the past.

Turning out "A confident, competent, dynamic and innovative" forensic professional is what we consistently strive for at SIFS INDIA. I am confident that our highly trained "Competent Forensic Professionals" will prove to be indispensable assets to society and the legal and financial industry. I highly endorse the principle "Never give up doing the job that you're passionate about." "To achieve a safe and secure totality of surrounding conditions for all the people with integrity, render a responsible and effective service of high quality accessible to every person."

## About Program

Graphology is a pseudo-science that helps infer a character from a person's handwriting. It is an in-depth study conducted to ascertain a person's psychological and emotional conditions by analyzing their physical characteristics and pattern produced in the handwriting. Graphology is a science of great help to improve one's personal, social, and team-related skills. The concept of graphology lies in the fact that handwriting results from neuro-muscular coordination that changes with time, presenting our minds on paper. Therefore, it is an expression of personality and can aid in forensic analysis. Graphologists aid forensic investigators in entering the criminal's mind palace and seeing what's behind the written words.

Graphology has vast applications in sciences and daily life, finding personality traits from one of our expressive behaviours, handwriting. It can give an impression of a person's weaknesses and strengths, helping individuals to guard their mind and health and use it as a projective tool. Therefore, this program aims to practice graphology in all aspects, such as forensics, psychology, fraud etc. It aims to provide proper practice after detailed theoretical and practical sessions to prepare learners to handle any case involving handwriting. This pseudo-science would equip the learners with a full-fledged understanding to apply to legal, practical, social, and personal affairs.

The learners will receive and gather knowledge regarding:

- › Concepts and Fundamentals of Graphology
- › Legal applicability and challenges to Graphology
- › Unravel your hidden personality Traits
- › Hands-on practice on real samples
- › Inferring traits that define public Image
